# Geminix T5 Linear Fluorescent

## Features:

The Geminix T5 Series is the highest quality slim fluorescent available on the market today. Their reputation has made them an ideal lighting solution for cove lighting, under-cabinets, displays, walls, and many more applications. This unit features a high-grade built-in electronic ballast that delivers 3-5 years of max performance while consuming very low energy, and offers easy installation with various link cords and mounting brackets.

- ▶ Built-in electronic ballast
- ▶ Linkable up to 300 watts
- ▶ Energy-efficient (650 lumens @ 8 watts)
- ▶ Easy plug 'n play installation
- ▶ Silver anodized finish
- ▶ Very low profile (7/8" w x 1 5/8" h)
- ▶ Available in 9 different color temps

## Specifications:

|                      |                                                                         |
|----------------------|-------------------------------------------------------------------------|
| Fixture              | Extruded aluminum housing                                               |
| Finish               | Satin anodized                                                          |
| Lamp Cover           | Polyvinyl carbonate diffuser                                            |
